

# Lightning Sites

The Quick and Easy Solution to Your Advertising Needs

**Could your business benefit from a full colour advert that would be displayed 24 hours a day, 365 days a year to millions of people for under £40 a year?**

**Interested? Think it's too cheap to be true? Read on, you will be pleasantly surprised.**

In this current climate where there is so little work out there, you need your business to be noticed. You need to be found before the competition.

### **How do people find you?**

When looking for a plumber, builder, electrician, garage or school, where is the first place you look? Most people look on the Internet. Are you there?

You may only need one web page to show the world, who you are, what services or items you provide and how they can get in contact with you.

**You don't need the Internet or an email address to have a web site.**

You don't need to be computer literate because we do everything for you.

Lightning Sites will design and build your web site. The more you help with the design, the cheaper it will be. You may have all the graphics we need, on your headed paper, business cards or previous advertisements.

You can start off with a single page web site and add more pages over the years when your business increases and finances allow. You can also have an extra page on the site for short periods of time for promotional purposes.

Lightning Sites can also host your web site for you. We have dedicate web space in Canary Wharf, London, so it is cheaper for us to host your site rather than you having your own web space. The only thing you will have to do, is pay your bill once a year. Hosting on our web space is £36 a year. Your domain name (www.\*\*\*\*\*.co.uk) costs £2.99 a year (renewable every two years). If you want a '.com' the cost is £8.99 a year.

Give us a call, consultation is totally free. Let us put your company on the Internet so people can find you, giving you the edge over the competition.

### **Contact Details:**

[www.lightningwebsites.co.uk](http://www.lightningwebsites.co.uk)

Email: [sales@lightningwebsites.co.uk](mailto:sales@lightningwebsites.co.uk)

Telephone: 01305 768355

Mobile: 07855 929685

*Did you know that most people, on initial contact, would prefer to email your company rather than talk to you on the phone. Why?  
Because they don't want to talk to a salesperson.*
