

Lightning Web Sites specialise in affordable web sites for small businesses, communities and clubs.

If you don't feel that you need a full web site, you can share a web site with other companies on your estate or other shops in in the complex.
It's a lot cheaper.

The Home page would reflect the estate or shopping complex name (e.g. www.colwellcentre.co.uk) and each of you would have space on the Home page.

We would supply links to your existing web site, your emails address, your facebook page, Checkatrade, revues etc.

Even if you have a web site already - Remember - The more your domain name appears on the Internet, the higher the ranking you get in the search engines.

All you need is 5 or more of you and we will design, build, host the web site and set up the domain name for FREE. We will design the advert for you at a one off charge of £25 and we will charge you £25 per year for the space (no hidden charges).

10 or more of you, and we will design your adverts for FREE.

If the advert alone is not enough space for you, we can supply a full page on the same web site for an extra £25 per year (linked from the Home page).

To see an example of a sharing web site, go to our web site and click on the Shared Web Site tab.

Are you the manager of a shopping complex or industrial park, or would be willing to be the coordinator between us and the businesses?
Your business can go on the web site for free. Give us a call.
